meet the demands nature makes upon it  
many a young woman returns home  
from the severe mental strain of school

her functions disarranged, to go to an  
early grave. If she had been wisely  
counselled and given the benefit of Dr.  
Pierce's "Favorite Prescription" her  
body development might have kept  
pace with her mental growth, and health  
and beauty would not have given way  
to decline and death.
